RESIDENTS FROM DUKE UNIVERSITY HOSPITAL, DURHAM, NORTH CAROLINA

J. David Jones, M.D.

(Assigned to LSU Pediatrics from 9/1/55 to 10/15/55)

Gerard Marder, M.D.

(Assigned to Tulane Pediatrics from 11/1/55 to 12/31/55)

Karl Leitheiser, M.D. (Assigned to LSU Pediatrics from 1/1/56 to 2/29/56)

Madison Spach, M.D.

(Assigned to Tulane Pediatrics from 3/1/56 to 4/30/56)

Harold Yount, M.D.

(Assigned to LSU Pediatrics from 5/1/56 to 6/30/56)

RESIDENTS FROM OTHER HOSPITALS AND DEPARTMENTS

Clarence G. Rayburn, M.D.

(Served in Radiology Department from July 1, 1955 to December 31, 1955—From Veterans Administration Hospital, New Orleans)

Ramon Mouton, M.D.

(Served in Radiology Department from March 15, 1956 to June 30, 1956 -From Veterans Administration Hospital, New Orleans)

Paul Robertson, M.D.

(Served in Radiology Department from April 2, 1956 to June 30, 1956— From Foundation Hospital, New Orleans)

M. Virginia Reid, M.D.

(Served in Radiology Department from January 1, 1956 to March 31, 1956—From Foundation Hospital, New Orleans)

Bernard Hickman, M.D.

(Served in Radiology Department from October 1, 1955 to December 31, 1955—From Foundation Hospital, New Orleans)

John Zimmerman, M.D.

(Served in Pathology Department from May 1, 1956 to June 1, 1956-From Mercy Hospital, Toledo, Ohio)

Barbara Orski, M.D.

(Served on Tulane Pediatrics from April 1, 1956 to May 31, 1956-From Massachusetts General Hospital, Boston)

Gerald L. Schiebler, M.D.

(Served on Tulane Pediatrics from April 1, 1956 to May 31, 1956-From Massachusetts General Hospital, Boston)

Catherine Carroll, M.D.

(Served on Tulane Pediatrics and Premature Infant Unit from March 26, 1956 to April 30, 1956-From University of Michigan, Ann Arbor)

Robert J. Jernigan, M.D.

Exchange Resident from Veterans Administration Hospital, New Orleans-Assigned to Tulane Medicine from July 1, 1955 to September 30, 1955

Charles Hendricks, M.D.

Exchange Resident from Veterans Administration Hospital, New Orleans-Assigned to Tulane Medicine from July 1, 1955 to September 30, 1955

Don Huber, M.D.

Exchange Resident from Veterans Administration Hospital, New Orleans -Assigned to Tulane Medicine from October 1, 1955 to December 31,

Charles P. Sherman, M.D.

Exchange Resident from Veterans Administration Hospital, New Orleans -Assigned to Tulane Medicine from October 1, 1955 to December 31, 1955

Thomas Snyder, M.D.

Exchange Resident from Veterans Administration Hospital, New Orleans-Assigned to Tulane Medicine from January 1, 1956 to March 31, 1956

Oscar Bienvenu, M.D.

Exchange Resident from Veterans Administration Hospital, New Orleans-Assigned to Tulane Medicine from January 1, 1956 to March 31, 1956

Ammon W. Hoover, M.D.

Exchange Resident from Veterans Administration Hospital, New Orleans-Assigned to Tulane Medicine from April 1, 1956 to June 30, 1956

John P. Mitchell, M.D.

Exchange Resident from Veterans Administration Hospital, New Orleans-Assigned to Tulane Medicine from April 1, 1956 to June 30, 1956

Burton Lindau, M.D.

Resident from EENT Hospital, New Orleans-Assigned to Tulane Ophthalmology from July 1, 1955 to September 30, 1955

Donald Ford, M.D.

Resident from EENT Hospital, New Orleans-Assigned to Tulane Ophthalmology from July 1, 1955 to September 30, 1955

Paul K. Wellman, M.D.

Resident from EENT Hospital, New Orleans-Assigned to Tulane Ophthalmology from 10/1/55 to 12/31/55

Lawrence O. Gahagan, M.D.
Resident from EENT Hospital, New Orleans—Assigned to Tulane Ophthalmology from 10/1/55 to 12/31/55

Joseph H. Derivaux, M.D.

Resident from EENT Hospital, New Orleans-Assigned to Tulane Ophthalmology from 1/1/56 to 3/31/56

J. Rumage, M.D.

Resident from EENT Hospital, New Orleans-Assigned to Tulane Ophthalmology from 1/1/56 to 3/31/56

Jerome L. Byers, M.D.

Resident from EENT Hospital, New Orleans-Assigned to Tulane Ophthalmology from 4/1/56 to 6/30/56

Paul C. Wilkins, M.D.

Resident from EENT Hospital, New Orleans-Assigned to Tulane Ophthalmology from 4/1/56 to 6/30/56

John L. Wright, M.D.

Resident from Ochsner Clinic assigned to Tulane Orthopedics from 1/1/56 to 6/30/56—Exchange Resident

CHARITY HOSPITAL INTERN STAFF July 1, 1955 - June 30, 1956

JOINT REPORT

OF THE VICE-PRESIDENT AND THE DIRECTOR

June 30, 1955

The Honorable Earl K. Long Governor of the State of Louisiana Baton Rouge, Louisiana

Dear Governor Long:

The Vice-President of the Board of Administrators and the Director of Charity Hospital submits the following report of the activities of the Hospital for the fiscal year July 1, 1955 to June 30, 1956.

In submitting this annual report, we wish to acknowledge at the outset our indebtedness to the individual members of the Board for their time so generously contributed in so many ways to the welfare of the patients of the Hospital.

As evident from the entire report, the year was notable in the expansion of medical services rendered patients and the increase in cost of operations as compared with the previous years operation.

In-Patient Admissions—74,583 patients were admitted to the Hospital during the current fiscal year compared with 70,755 the previous year, an increase of 3,828. The daily average number of patients amounted to 2,502. Of the total admissions, 48,708 were from the New Orleans metropolitan area (Orleans, Jefferson and St. Bernard Parishes) and, 25,875 from all other parishes of the state.

Out-Patient Visits—635,277 patients were given medical services in the clinics during the fiscal year compared with 524,863 the previous year, an increase of 110,414.

Cost of Operation—As compared with the previous year, cost of services to patients, that is, ordinary recurring expenses, increased \$692,988.34 over the previous year, from \$9,778,314.24 to \$10,471,312.58. It is shown that \$7,044,493.25 or 67.27% of the total operating cost was for personal services.

At the beginning of the fiscal year, all employees were given a one-step increase in pay, accounting for \$537,244.19 of the total \$692,998.34 increase in operations cost. Those employees providing bed-side care to patients received \$390,704.96, or 72.72% of the total salary increases. However, the shortage of Registered Nurses still remains an unsolved problem. The Hospital had to depend to a large extent on Practical Nurses and Nurses Aides trained in the Hospital to furnish adequate nursing care to patients.

Capital Expenditures—During the year, \$104,240.29 was expended out of Operating and Trust Funds for additional, and replacement of obsolete and worn out, equipment.

Many of the long dormant plans of the Board have begun to materialize. This was made possible by a special Legislative appropriation of \$1,903,075.00 to the Hospital to be used for equipment and major repairs to the physical plant. Of the total sum made available to the Hospital, \$821,597.77 was expended for repairs and additions to the air-condition-

ing system in the main building; \$87,136.60 for repairs and alterations to the Colored Tuberculosis Building, in consequence providing additional beds for Tuberculosis patients; \$36,529.04 for major repairs to the Power plant; and, \$17,679.56 for replacement of obsolete and worn out equipment in the Laundry.

This report would not be complete without an expression of deep gratitude to all members of the staff and their assistants for their expert performance of duties, wholehearted loyalty and manifest devotion to Charity Hospital's welfare and progress. To the Sisters and Dr. Adolph A. Flores, able Assistant Director, we are particularly indebted for their outstanding contribution to the administration of the Hospital.

Respectfully submitted,

WM. AUGUST WORNER, Vice-President

E. L. LECKERT, M.D. Director

CHARITY HOSPITAL OF LOUISIANA AT NEW ORLEANS

COMMENTS ON OPERATIONS Fiscal Year July 1, 1955 to June 30, 1956

We submit herewith the Financial Report accounting for the Revenues and Expenditures of all funds for the fiscal year July 1, 1955 to June 30, 1956.

In the following general comments there is presented comparisons in the cost of operation of the Hospital during the current year as compared with the previous year and other statistical information.

Comparative Statement-Means of Financing

1954-1955 \$ 9,665,885.00	Increase \$698,415.00	Decrease
100,000.00 184,782.93 281,598.42	16,969.73 1,407.56	100,000.00
\$10,232,266.35	\$716,792.29	\$100,000.00
	\$ 9,665,885.00 100,000.00 184,782.93 281,598.42	\$ 9,665,885.00 \$698,415.00 100,000.00 184,782.93 16,969.73 281,598.42 1,407.56

Comparative Cost of Operations

Personal Service Cost	1,031,831.13 1,466,458.03 804,594.72	1954-1955 \$6,507,249.06 961,194.60 1,393,184.38 774,834.74 141,851.46	Increase \$537,244.19 70,636.53 73,273.65 29,759.98 17,916.01*	Percent Increase 8.26 7.35 5.26 3.84 12.62*
	\$10,471,312.58	\$9,778,314.24	\$692,998.34	7.09
				-

As of June 30, 1956, there were 3,261 employees on the payroll, excluding Doctors and Students, as compared with 3,178 as of June 30, 1955, an increase of eighty-three. Whereas the total personal service cost increased \$537,244.19, or 8.26%, the nursing service personnel received \$390,704,96, or 17.20% of the total increase as evidenced by the following:

Personal Service Cost

	Compara	ative Cost		Percent
Resident Doctors & Interns\$	1955-1956 487,248.76	1954-1955 \$ 402,876.45	Increase \$ 84,367.31	Increase 20.94
Registered Nurses \$ Practical Nurses Nurses Aides Student Nurses	1,043,354.69 360,483.50 1,221,232.34 37,344.41	\$ 970,523.79 246,322.43 1,018,719.78 36,143.98	\$ 72,830.90 114,161.07 202,512.56 1,200.43	7,50 46.35 19.88 3.32
Total Nursing Service Cost	2,662,414.94	2,271,709.98	390,704.96	17,20
All Other Personnel \$ Sisters of Charity	3,862,899.41 24,000.00 7,935.14	3,802,067.14 24,000.00 6,595.49	60,832.27	1.60
Total Payroll Cost\$	7,044,493,25	\$6,507,249.06	\$537,244.19	8.26

Labor turnover for the year equaled 44.80% compared with a labor turnover of 50.91% the previous year.

The cost of Pharmaceuticals, Medical and Surgical Supplies used as compared with the previous year increased \$73,273.65, as accounted for by the following:

	Fisca	al Year		
Pharmaceuticals \$ Anesthesia Gases-Oxygen Medical & Surgical Supplies X-Ray Films & Photographic	1955-1956 610,788.75 60,460.83 599,707.34	1954-1955 \$ 602,698.80 59,000.19 575,996.67	Increase \$ 8,098.95 1,460.64 23,710.67	1.34 2.47 4.12
Supplies	195,501.11	155,497,72	40,003.39	25.73
8	1,466,458.03	\$1,393,184.38	73,273.65	5.26
				-

Comparative Cost-Patients Care

	955-1956	1954-1955	Increase	Decrease
Patients Admitted	74,583	70,755	3,828	
Patient-days	915.584	902,934	12,650	
Cost per patient-day	\$10.60	\$10.04	56	
Patient Visits (Clinics	635,277	524,863	110,414	
Cost per patient-visit	\$1.21	\$1.35		.14

The increase in the cost of food and other consumable supplies can be partly attributed to the increase in patient load.

Employees' Retirement Plan

Hospital's Contribution to the	1954-1955	Inrcrease
Retirement Plan	\$335,635.40 280,531.95	\$29,186.91 24,946.63
\$670,300.89	\$616,167.35	\$54,133.54

Employees who are members of the State Retirement Plan contribute five percent of their gross earnings. The Hospital contributes six percent. It is to be noted that the Hospital's contribution during the fiscal year increased \$29,186.91 over the previous year.

Inventory-Materials and Supplies

Pharmaceuticals \$ Food Housekeeping Supplies Office & Multigraph Supplies Maint. Materials and Supplies Medical and Surgical Supplies	6/30/56	6/30/55	Increase
	58,259.94	\$ 52,834.70	\$ 5,425.24
	13,269.95	· 9,559.93	3,710.02
	26,588.64	22,734.98	3,853.66
	5,470.39	4,290.54	1,179.85
	52,130.31	54,614.58	2,484.27*
	73,829.29	46,808.50	27,020.79
\$:	229,548.52	\$190,843.23	\$38,705.29

At the end of the fiscal year June 30, 1956, physical inventories were taken of all consumable materials and supplies in stores. It was found necessary to adjust book inventories due to unaccounted for shortages in the amount of \$2,423.85. Inventories of materials and supplies on hand as of June 30, 1956, were evaluated at cost.

^{*} Denotes RED Figure

Materials and Supplies Inventory turnover during the fiscal year was as follows:

	Turnover Ratio		
Pharmaceuticals	11.51	32	days
Food	10.56	35	days
Housekeeping Supplies	5.71	64	days
Office and Multigraph Supplies	5.61	65	days
Maintenance Materials and Supplies	.83	440	days
Medical and Surgical Supplies	7.02	52	days

Capital Expenditures

Expenditures for additional and replacement of worn out Equipment out of Operating Funds amounted to \$86,215.11, as follows:

Current Year's Appropriation. \$34,337.10 Prior Year's Appropriation 51,878.01

\$86,215.11

Contractual Commitments

Contractual Services Materials and Supplies Equipment—Capital Outlay State Sales Tax & Transp. (Est.)		118,286.12 52,874.66	Decrease 4,056.49 85,322.19 15,037.89 453.74*
	73,012.70	176,975.53	103,962.83

From the above it will be noted that at the end of the fiscal year, June 30, 1956, Purchase Order Commitments outstanding were \$103,962.83 less than the end of the previous fiscal year. It was found advisable to materially reduce the issue of purchase orders during the month of June to avoid an operating deficit for the fiscal year ended June 30, 1956.

Sundry Revenues

Collections during the fiscal year for services rendered ineligible patients, fees, licenses, etc., amounted to \$279,937.63, as compared with \$244,322.75 received the previous year, an increase of \$35,614.88, as follows:

Ineligible Patients Services	1955-1956 \$160,718.41 25,116.52 70,458.18 23,644.52	1954-1955 \$131,214.39 29,287.08 61,112.08 22,709.20	Increase \$29,504.02 4,170.56* 9,346.10 935.32	Percent 22.49 14.24* 15.29 4.12
	\$279,937.63	\$244,322.75	\$35,614.88	14.58
	The state of the s	And the Contract of the Contra	- Section and the section and	-

During the fiscal year 4,305 ineligible patients were billed for medical services rendered in the aggregate amount of \$323,328.19, compared with 3,814 billed the previous year for a total amount of \$261,208.02.

Of the total number of patients admitted to the Hospital during the year, namely, 74,583, 4,305 or 5.77% were ineligible from information furnished by the Social Service Department.

^{*} Denotes RED Figure

As provided by General Appropriation Act 271 of 1950, all sundry revenues listed hereinabove were transferred to the Louisiana State Treasurer.

Insurance

Adequate insurance has been provided on all Hospital properties. All employees and professional personnel are covered by Workmen's Compensation Insurance.

Reserve-Hospital's Equity June 30, 1956

The Hospital's retainable equity of funds, etc. as of June 30, 1956, as shown in the Balance Sheet, is represented by the following summarized current assets:

Inventory—Materials and Supplies	\$229,548.52
1956, for which an equal amount of funds has been retained	73,012.70 17,038.05 374.00
	\$319 973 27

Accounts Receivable

Miscellaneous Accounts Receivable of record as of June 30, 1956, viz.: \$10,718.55 are current obligations due the Hospital. The amount of \$36,473.20 due by the National Foundation for Infantile Paralysis represents charges against the State Parish Chapters and is guaranteed by the Foundation. All obligations due are considered collectible.

Expenditures during the fiscal year were made and accounted for in accordance with the provisions of the State Budget Act.

All obligations incurred and due by the Hospital as of June 30, 1956

are current and accounted for and liabilities set up therefor.

At the close of the fiscal year June 30, 1956, there is shown an unencumbered surplus in the Operating Fund of \$2,397.09 subject to be returned to the State Treasury in accordance with the General Appropriation Act (Act 271).

Following our customary practice, we have taken advantage of all allowable cash discounts in accordance with the terms of purchase contracts. Cash discount earned during the year amounted to \$31,616.28.

During the year we paid \$51,392.65 in State Sales Tax.

During the year we received from the U. S. Surplus Commodities Corporation food evaluated at market value amounting to \$94,370.56, which value is not included in the cost of food consumed. This compares with food valued at \$39,687.05 received the previous year.

Visitors' Food Service Department

The operation of the Cafeteria is financed by a separate Legislative Appropriation of \$7,500.00 as a Revolving Fund, subject to be returned to the State General Fund should the operation of the Department be discontinued.

Permission has been granted to a number of soft drink dealers to install soft drink dispensing machines in the Hospital as an accommodation to the patients and employees, from which the Hospital receives a commission on sales.

Profits earned during the fiscal year as compared with the previous year were as follows:

Commissions earned on vending machine sales	1955-1956 \$28,328.78	1954-1955 \$26,159.51
Deduct		
Loss on the Food Store Operation	7,507.20	4,049.51
Net Profits	\$20,821.58	\$22,110.00

As provided by Law the net profit earned is subject to be transferred to the State General Fund.

Trust Funds

During the year various donations and grants to the Hospital were received, as follows:

Permanent Funds Restricted as to Use Federal Research Grant Unrestricted as to Use Special Project Funds	4,260.00 32,000.00
	\$64,532.31

Income received from investments of Trust Funds during the fiscal year amounted to \$195,092.37, as follows:

	Restricted	Unrestricted	Total
Interest \$ Rent Royalties Leases Dividends	20,864.77 21,610.00 48,273.95 448.12	\$ 59,311.66 13,118.79 7,029.58 11,635.50 12,800.00	\$ 80,176.43 34,728.79 7,029.58 59,909.45 13,248.12

Compared with the previous year, investments in Securities increased \$141,754.25, from \$3,154,050.03 to \$3,295,804.28.

Bond Liquidation Fund

During the fiscal year \$324,000.00 of Bond obligations were retired and total interest on bonded indebtedness amounting to \$191,643.00 was paid.

As authorized by the Board of Administrators, \$283,005.98 was transferred to Operating Funds during the fiscal year.

The balance of \$429,642.25 in the fund as of June 30th, provides a reserve for the retirement of Bonds and accrued interest on Bond obligations due and payable as follows:

\$219,917.25 209,725.00
\$429,642.25

Capital Improvements

The State Legislature made available to Charity Hospital funds as a Means of Financing, repairs and alterations to Buildings as follows:

Act 13 of 1954\$ Act 30 of 1955—Bond Issue		
Hospital's Contribution (Dibert Fund)	1,903,075.00 12,089.20	
Total Available		\$ 1,915,164.20

Encumbrances and Expenditures to 6/30/56

Repairs to Boilers\$	13,834.50		
Laundry Equipment	5,206.15 17,679.56		
Renovation-Water Softener			
System	22,694.54		
Air-Conditioning System Repairs and alterations	821,597.77		
Colored Tuberculosis Bldg.	87,136.60	\$	968,149.12
Unencumbered Balance June 30, 1956		9	947,015.08
		φ	041,010.00

Prior to the change in the State Administration, these funds were under the supervision of the Louisiana State Building Authority and have been transferred under the supervision of the State Treasury Office.

Respectfully submitted, L. A. MILLET Secretary-Treasurer

ANNUAL REPORT PURCHASING DEPARTMENT

July 1, 1955 to June 30, 1956

Purchase Orders, Purchase Order Changes and Purchase Order Cancellations written 21,220 Quarterly commodity bids, yearly goods and services bids and construction and maintenance bids prepared and contracts 70

At the close of the year, the Department is operating with ten em-

General activities have differed little from those of previous years in that all supplies and services for the Hospital were procured through this Department.

All contracts or orders were awarded to the lowest responsible bidders on a competitive basis. The services of testing laboratories were utilized

to assure compliance with certain specifications.

The Charity Hospital specifications for meat and meat products have been in continuous use through the year and the resulting products purchased under these specifications showed significant improvement over other non-inspected products. All meats, meat food products and meat byproducts were required to be graded and certified prior to delivery by an official grader of the U.S. Department of Agriculture and identified by the Charity Hospital acceptance stamp and an official meat grade certificate.

Our specifications for fresh fruits and vegetables and poultry and eggs were used during the year until April 1, 1956 when they were superseded by the Standard Specifications issued by the State for these items as well as for processed foods and cereals, cereal products and beans. Little change occurred with respect to the procurement of fresh fruits and vegetables and poultry and eggs as these items were required to be inspected prior to delivery by the Hospital before the implementation of the State specifications.

Processed foods were required to be inspected as to grade and quality when the total award on any one item of canned fruits and vegetables was 50 cases or more. This requirement resulted in improved quality and

provided an assurance that quality requirements were fulfilled.

The Warehouse became a separate entity from the Purchasing Department on September 1, 1955. Through their efforts, this Department has been assured that the inspection requirements were fulfilled and that each delivery was in strict compliance with the requirements of the purchase order.

Contractual forms have been revised to simplify bid advertisements,

bid openings and actual contract preparation.

Written vendor application forms have been planned and prepared

to coordinate prospect applications with bid lists and bid requests.

Bid lists were revised, categorized and embodied in readily accessible form to simplify the method of bid invitations.

Respectfully submitted,

GEORGE A. SANDERSON, JR., Purchasing Agent

ANNUAL REPORT PERSONNEL DEPARTMENT

July 1, 1955 - June 30, 1956

Total number	r of positions as of June 30, 1956	3,502
Total number	of active employees as of June 30, 1956	3,259

On July 1, 1955 and August 1, 1955 salary adjustments and salary

increases were given to 2,529 employees.

Employees of the hospital who had attained the age of 60 years and were not members of the retirement system were required to obtain Social Security numbers in December of 1955. All future employees 60 years of age or older will be required to possess a Social Security number and deductions will be made from their salaries for old age benefits.

Personnel record files were rearranged; new record cards were prepared; loyalty oaths were administered to all employees and filed in their folders and statements of all accrued annual and sick leave were sent to the department heads so that they might check their records against those in this department. In addition, letters were sent to all separated employees who had not claimed their refunds of accumulated contributions to the retirement system and refund forms were submitted to clear these accounts.

Throughout the year, various minimum changes were made in the civil service pay plan and the majority of these changes were processed as

they became effective.

During the year 1,382 people were employed. 1,591 employees resigned and 219 employees were discharged. Included in the number of employees resigning were residents, interns and students.

Respectfully submitted,

CHARLES C. STURTEVANT, Personnel Director

ANNUAL REPORT OF THE SISTERS' DIVISION July 1, 1955 - June 30, 1956

In the Sisters' Division, there are four departments—the School of Professional Nursing, which conducts a three-year diploma program for the training of professional nurses; the Dietary Department, which conducts an excellent one-year Dietetic Internship Program for graduate dietitians; the Housekeeping Department; and the Nursing Service Department, which in addition to its many responsibilities concerning patient care, also administers a program of affiliation with the Orleans Parish School Board for the training of practical nurses. Detailed reports of the activities will be submitted by each of the Sisters directing these departments.

During the past fiscal year, all of the departments in the Sisters' Division cooperated in an extensive program to assist the School of Professional Nursing in its efforts to secure national accreditation. These efforts were successful, and in June, 1956, the School was granted national accreditation.

In addition to the regular number of Daughters of Charity assigned to Charity Hospital, the St. Louis Central House has sent five additional Sisters to serve Dietetic Internships here. In view of the great national shortage of dietitians which has effected a shortage of lay dietitians at Charity Hospital, these Sisters Dietetic Interns have helped materially to fill the need for professional personnel in the Dietary Department.

The Housekeeping Department has continued its efforts to improve the quality and scope of service rendered by the department in keeping the hospital buildings and environs clean and sanitary.

In the Nursing Service Department, the continuing shortage of professional nurses has hampered our program of improved patient care to some extent, but we have attempted to bridge the gap by enlarging and developing the in-service training programs for our nurse aides and licensed practical nurses, and also by increasing the number of affiliating practical nurse students from the vocational schools in New Orleans.

The renovation and repair of the Sisters' Residence has continued during the past twelve months, and is ninety-five percent complete to date. The work has been so efficiently done that it has practically remade the four-story building designated as the Sisters' Living Quarters, and has greatly increased the comfort and convenience of the Sisters who live there.

Respectfully submitted, SISTER MARGARET, Director Sisters' Division

NURSING SERVICE

eral supervision of this area.

During the past fiscal year, adequate staffing of the services with qualified nursing personnel was a major problem. The employment of 141 professional nurses during this period was offset by the resignation

of 184, and the Nursing Service Department had fewer professional nurses to care for a higher patient load than at any time in recent years. An inevitable result of this condition was a substantial increase in the number of licensed practical nurses and nurse aides employed to give nursing care. The work performed by this group of employees is, in general, commendable, but the preparation required for employees in these classifications is insufficient to enable them to give the type of skilled nursing care required for the large number of acutely ill patients in Charity

Hospital.

Consideration of the critical shortage of nursing care invariably brought out the need for an improvement in working conditions for nursing personnel. Low beginning salaries, and the 44 to 48 hour work week did not attract the better qualified persons engaged in nursing. A recommendation to pay a day's salary to nurses who work on holidays and days off, in lieu of compensatory time off, was approved, and this plan is a great help in emergency situations. In June, 1956, a request was made by the Nursing Service Department and approved by the Board of Administrators which permitted an increase in the minimum salaries for head nurses, staff nurses, and licensed practical nurses, and which placed these employees on a 40-hour, five-day work week. Nurse Aides and other Nursing Service employees directly concerned with the nursing care of patients were placed on a 44-hour work week. A stabilized and better prepared nursing staff, which will give more and better nursing care, is anticipated for the coming year because of this action.

IN-SERVICE EDUCATION

An in-service training program for employed practical nurses was initiated in August, 1955. The course consists of classroom demonstration and theory and supervised clinical experience. Nineteen employed practical nurses completed the first course, and a class of 25 employed practical nurses is in progress.

The in-service training program for employed nurse aides continues to meet an urgent need, the training of personnel to perform simple routine nursing tasks. Two groups of nurse aides were given the nurse aide training course during the year, with a total of 97 completing the

course.

AFFILIATION PROGRAM FOR PRACTICAL NURSES

The Nursing Service Department admitted three classes of student practical nurses for clinical experiences on affiliation from the Booker T. Washington High School during the fiscal year. Two classes completed the 32-weeks' program and 45 students were graduated. The third class which was admitted in February, 1956, has 22 students enrolled. Upon completion of each class, a majority of the graduates were employed at Charity Hospital.

An extension course for licensed practical nurses, sponsored by the Jefferson Parish Trades School, began an affiliation with Charity Hospital in January, 1956. The class and clinical experience sessions are held in the evenings at Charity Hospital. The course consists of 144 hours of theory and 100 hours of supervised practice, and is to extend over a period of one year. Thirty licensed practical nurses are enrolled in the course.

OTHER ACTIVITIES AND ACHIEVEMENTS

A. Planning for and moving of patients and equipment in the Operating Rooms, Recovery Rooms, and Neurology Service in order to permit installation of a new air-conditioning system; and planning and

moving of patients and equipment in the Tuberculosis buildings in order to permit renovation of the Colored Tuberculosis Building.

B. Preparation for and participation in the Nursing Accreditation Survey which resulted in national accreditation for the Charity Hospital School of Nursing.

C. Reactivation of the staff education program for professional nurses, with regularly scheduled joint meetings of the nursing service and

nursing education staffs.

D. Revision and distribution of twenty Nursing Service Policies and of the Daily Work Schedules for all classifications of nursing personnel on each shift. In addition, seven new policies were issued during the year.

E. Revision, distribution and demonstration of two basic nursing procedures. This work is the responsibility of the Nursing Service Department and is a continuing activity. It is conducted through the Committee on Revision of Nursing Procedures, a very active group, with representation from Nursing Service, the School of Nursing, and the Practical Nurse Affiliation Program. Subcommittees are appointed as indicated. The Committee on Revision of Nursing Procedures held ten meetings during the fiscal year, and twelve basic nursing procedures are still in the process of revision at the close of the fiscal year.

CONCLUSION

The Nursing Service Department at the present time is facing toward a period of anticipated improvement and development. We feel that the recent changes in personnel policies for professional nurses will enable us to recruit, and perhaps more important, to retain qualified personnel who will be capable of rendering the skilled professional care needed by our patients. We are desirous of fulfilling our designated function in such a manner that the Nursing Service Department will be administered competently, will function efficiently for 24 hours per day, seven days per week, and will provide a higher type of nursing care to patients than has been possible at any time in the past several years.

ANNUAL REPORT OF THE CHARITY HOSPITAL SCHOOL OF NURSING

July 1, 1955 - June 30, 1956

ACCREDITATION

National

Since 1949 the school of nursing has had temporary accreditation by the National Accreditating Agency. This year the school applied for full accreditation; its application was accepted, and on April 16, 1956, three representatives of the accrediting agency began a five-day survey of the school program and the clinical and physical facilities of the hospital. The board of review approved our program granting the Charity Hospital Shcool of Nursing full accreditation. This information will be published in the September issue of the Nursing Outlook, official nursing publication. An official report of the survey is on file in the office of the director of the hospital and in the school of nursing.

Because of the national survey the official visit of the state nursing supervisor was delayed, so there is no report for the current fiscal year. Improvement made since the last visit include the installation of additional handwashing facilities in the pediatric department. This is a recommendation that has been made for several successive years.

PROGRAM OF STUDIES

A new pattern for the educational program was instituted for the class admitted in September 1953, which provided for a closer correlation of theory and practice. At the same time certain areas in the hospital were selected for clinical practice and the school assumed more direct responsibility for the supervision of the student in the practice area. Also, the number of weeks of evening and night duty was limited to conform with State Board regulations.

The first product of this program will graduate this fall so it is too soon to validly evaluate the results. However, the faculty is of the opinion that there is a decided improvement in the student and that the service which she renders to the patient is safer and of a better quality than was

possible to achieve under the old program.

RECRUITMENT AND FINANCIAL AID

The quota set for the 1956 class was one hundred and fifty students. This number was accepted but only one hundred and forty-five registered. Of these sixty-four were from the state of Louisiana; the majority of the remaining number were from surrounding Southen states. The recruitment consisted primarily of mailing the school catalog to all state approved high schools in Louisiana, and to the high schools in the southern states that are approved by the Southeastern Association. Two schools outside the city were visited upon invitation of the high school prinicipals. An open house was held in the early spring for the junior and senior classes of high schools within the vicinity.

The hospital granted loans of one hundred and ninety dollars to sixteen of the students entering the fall class. Seventeen students were granted scholarships by various organizations. Thirty-two loans ranging from \$5.00 to \$35.00 were made from the Kellogg Loan Fund to students in the school during the fiscal year. Advanced students were permitted to

work for the hospital nursing service on a pay basis on legal holidays and on their day off; this practice has been most helpful to the student financially.

STUDENT WELFARE

The personnel policies for the students are in keeping with those recommended. The work week has been reduced to an eight hour five day week and evening and night duty reduced to ten and eight weeks respectively. Health care is considered satisfactory, but having a physician responsible for the overall supervision of the medical care is recommended.

EDUCATIONAL PERSONNEL AND FACILITIES

The instructional personnel are on a whole adequately prepared, but the number one problem is the turnover among the faculty. In some areas there is an almost complete turnover each year. This would create an acute problem in any teaching situation but in a large and complicated place as Charity the problem is proportionately greater.

AFFILIATIONS

There are presently nineteen schools of nursing from seven different states who send students to Charity for theory and practice in practically all the clinical areas. During the present fiscal year five schools discontinued their affiliations; of these three schools were closed and two provided the experience in their own schools. Two out-of-state schools whose students receive psychiatric experience at Charity are being asked to discontinue this experience because of an overload of students in the department.

It has been recommended that we give thought to limiting the number of schools receiving experience at Charity and utilize the personnel to a better advantage for the home school.

Sincerely yours,

SISTER PAULINE, R.N., Director, School of Nursing

ANNUAL REPORT OF THE DIETARY DEPARTMENT

July 1, 1955 to June 30, 1956

ACTIVITIES AND ACCOMPLISHMENTS

Twelve dietetic interns completed their training on August 31, 1955, bringing the total to 135 since the establishment of the internship in 1944.

A new system of food service was innovated on the Colored Female Convalescent Ward on the 3rd Floor, by sending out the food in casserole dishes and allowing the patients to serve themselves in an attempt to give them a feeling of normality. This has worked very well on this one unit and it is hoped that eventually it can be used on all the Convalescent Wards.

On the other Floors the meal service was moved from the pantry to the wards. This consists of the cold food being put on the carts in the pantry and then sent to each ward. The hot carts are pushed from one ward to another serving the hot food until the entire floor has been served. Additional electric outlets were installed on each unit to take care of the hot food carts.

Several new procedures were instituted in the Formula Room:

- A record is kept of all code numbers of milk used for Premature Center.
- 2. Only Gerber's rice cereal and Gerber's strained green beans are used in the Premature Center.
- 3. A pre-discharge conference is held each Wednesday, 1:00 p.m.-2:00 p.m. for mothers who are taking their infants home, who are on bottle feedings. The terminal sterilization technique is demonstrated.

A new bottle washing machine was purchased for this unit in February, 1956.

In July, 1955, all diabetic patients in the Hospital were served from the Diet Kitchen, but during the year this responsibility was gradually assumed by the dietitians on the floors. It is believed this will help the morale of the diabetic patients by making them feel like other patients in the Hospital, receiving the same service in regard to meals. However, the liquid and tube feedings for diabetics are still prepared in the Diet Kitchen, as it would be impossible to prepare them on the floors.

The Nutrition Clinic continues to work with the Medical Staffs of Tulane University and Louisiana State University in conducting special dietary studies.

A special weight reduction study was conducted this past year, wherein patients are followed in the Nutrition Clinic by return visits. To evaluate the results of patients instructed on reduction diets, weight loss calculations were made on a total of 166 patients returning for appointments during a two week period from July 1-July 14. Twelve of the patients included in the study either did not lose or gain weight. The length of time that these patients had been followed ranged from one week to fourteen months.

Results are as follows:

Diet	Number of Patients	Wt. Lost Per Wk.	Av. Per Pt. Wt. Lost Per Wk.	Mean Wt. Range Lbs. Lost Per Wk.
1000	14	.9	1.1	6 to 5.
1200	49	1.2	1.0	9 to 3.2
1500	32	1.3	1.0	2 to 4.3
1800	7	1.6	1.4	.5 to 3.0

1800 Lo Na	7	.8	.5	.1 to 2.5

From the above results, it appears that the more liberal reduction diets result in a comparable weight loss to the more restricted caloric diets. One would conclude that the more liberal the diet, the more likely the patient is to stay on it. However, it would be interesting to find out if results of further studies would substantiate these findings.

During the year 12 Dietetic Interns and 113 Student Nurses rotated through the Nutrition Clinic Service.

The following list constitutes the bulk of patients instructed by the Nutrition Clinic during the fiscal year:

Diabetic Classes Diabetics attending Metabolic Clinic		Patients
Obstetric Classes	13,190	"
Individual Instruction New-All types	5,067	22
Individual Revisits	6,078	"

The use of individual sugar packets on the patients' trays was put into effect after a long study, and has proven satisfactory.

A new meat slicing machine was purchased for the Main Kitchen.

Threee window fans were purchased, two for the Main Kitchen and one for the Storeroom.

Two new desks were made in our carpenter shop for the Dietitian's Office, and two new posture chairs were purchased for this office.

Green plastic dishes are now being used in the Doctors' Dining Room instead of blue ones as formerly.

Plastic racks are now being used in the dish machine, which elimi-

nates noise.

The new air-conditioning system in the Doctors' Dining Room, Faculty Dining Room and Main Dietary Office was put into operation at the end of May. The addition of the Graduate Nurses' Dining Room to this unit is the realization of our hopes for many years.

Comparative figures of meals served are listed below:

Personnel Meals		1955-1956 1,300,496 2,557,288

Respectfully submitted, SISTER THERESA, Director Dietary Department

ANNUAL REPORT OF THE HOUSEKEEPING DEPARTMENT

July 1, 1955 to July 1, 1956

In the record of turnover of Personnel, a notable decrease is evident as compared to the last four years. In the year 1952-1953 the turnover was 215; 1953-1954 turnover 166; 1954-1955 was 118; and the turnover for 1955-1956 was 80 (60 resignations, 18 removals, and one retirement).

One Hospital Matron position was discontinued in the Professional Student Home. Three additional Custodial Worker II positions were assigned in August 1955, when housekeeping responsibility in the Premature Center was delegated to this division. The program was begun with germicidal disinfection of ceilings, walls, floors and furniture and compare to compare the compact distribution on antire unit. The same processions are processed in the compact of the compact distribution on antire unit. equipment, to combat diarrhea infection on entire unit. The same procedure was also done in the White and Colored Nurseries on 10th floor.

Five hundred fifty-eight mattresses were renovated: 380 in patient units, and 178 in Personnel sections.

New furnishings were supplied as follows:

New Vinyl Tile Tex floors were laid covering ninth floor. Main Sewing Section was equipped with air-conditioning unit. Three new Sewing Machines were purchased, one for Polio Center, two for Main Sewing Room.

One hundred nine new Metal Bookcases were purchased for the Doctors Quarters.

The Alpha Pest Control Company and National Window Cleaning Company performed their services satisfactorily according to contract.

In the Salvage Division \$2,703.96 worth of salvage material was sold to salvage dealers.

The following linen replacements were made:

660 Bedspreads

6,807 Sheets for adult beds

4,128 Sheets for Juvenile beds and rollers

1,348 Crib Sheets

600 Bassinet Sheets

5,765 Pillow cases 7,680 Bath towels

7,592 Huck towels

1,764 Kitchen towels

16,521 Wash cloths 6,620 Patient gowns

3,743 Pajamas

590 Patient robes

4,229 Bed pads

13,452 Diapers 668 Baby wraps 954 Hamper bags

110 Trash carrier bags
219 Ambulance stretcher pads
760 Doctors operating gowns
1,224 Doctors caps
1,184 Doctors scrub shirts
950 Doctors scrub pants
1,087 Nurses first gowns
410 Nurses 2nd gowns
495 Nurse Aide gowns
566 White smocks
108 Grey orderly smocks
1,676 Aprons

1,676 Aprons
1,320 Surgical towels
9,563 Sterile wraps
697 Blood pressure app. cuffs
220 prs. Scuffs
468 Bedside bags

240 Curtains (cubicle and bathroom) 162 New pillows 637 New blankets 394 Adult bed rubber sheets

264 Crib rubber sheets

Respectfully submitted, SISTER CLARISSE Director of Housekeeping

REPORT POLIOMYELITIS CENTER July 1, 1955 to June 30, 1956

The Polio Center, located in the Lapeyre Miltenberger Home for Convalescents, occupies second and third floors. Second floor is used for isolation and iron lung patients. Third floor is for convalescent patients.

This year a total of one hundred seventy-one patients were admitted with a daily peak census of sixty-two in June, nineteen hundred fifty-six. Of the total admissions, one hundred fifty-two were diagnosed and treated for poliomyelitis. Sixteen admissions were non-polio, and three were diagnosed and treated for Guillain Barre. There were nineteen respirator cases, and three deaths, only two of which were due to polio.

During the year, the Polio Center personnel continued to collaborate with the State Department of Health in their Poliomyelitis Surveillance program, and assisted Dr. Fox with his viral studies done at Tulane Uni-

versity Medical School.

With the advent of improved equipment, and better methods of patient care, the number of long term respirator patients has steadily increased in the past few years. Under these circumstancs, it has been felt necessary to have an emergency power unit installed as soon as possible. Steps to acquire this auxiliary unit are under way at present date.

Respectfully submitted by EVELYN GOURLEY, R.N., Supervisor

ANNUAL REPORT ELECTROCARDIOGRAPH DEPARTMENT

July 1, 1955 to June 30, 1956

The accompanying report shows the work performed in the Heart Station during the year. The figures refer to the number of electrocardiograms taken in each month, and to the number of arterial oxygen saturation studies, cardiac catheterizations, angiocardiograms, and cardiac fluoroscopic examinations.

Many sound tracings of the heart were made during the current year but the breakdown for months is not available although the data were

placed in the patient's records.

During the year cardiac clinics were conducted every afternoon, Monday through Friday, in order to maintain a closer check on patients with heart disease. There was also a pediatric cardiac clinic which is conducted every Friday.

DEPARTMENT OF ANESTHESIOLOGY AND BLOOD BANK

July 1, 1955 to June 30, 1956

A total of 23,000 anesthetics of all types was administered by the department throughout the hospital. Seven residents and thirty-seven student nurses completed their training in Anesthesia in the department.

The department acquired additional equipment. Among these was a Liston-Becker carbon dioxide or analyzer, an Oximeter and two automatic

breathing machines for use in chest surgery.

The facilities for the Anesthesia laboratory at the L.S.U. School of Medicine were made available to the members of the resident staff at this hospital for testing equipment and carrying out investigative procedures.

Dr. Helen Wallace, who was my assistant for the past year, resigned to join her husband in Hawaii. She was replaced by Dr. William Trotti.

The Louisiana Heart Association has made available a grant to subsidize a full time assistant in the department who will supervise the anesthesia for cardiac surgery. Dr. George Miles who will complete his residency in October has been appointed to accept this grant and remain with us an additional year, in the capacity of an assistant.

Dr. Walter Mannheimer, who was on the visiting staff and assisted us with our didactic program, left to accept the directorship of the Department of Anesthesia at Houston. He has been replaced by Dr. Kenneth

Bray.

The Blood Bank is active as ever. A total of 20,815 donors gave blood in the hospital. Of these 12,992 were colored; the remainder were white. The annual contract for the blood drawing and dispensing equipment was awarded to Cutter Laboratories for the blood bottles and to Baxter Laboratories for the dispensing equipment.

The Oxygen Therapy Department acquired 20 new croupette type tents for pediatric use. These were constructed in our shops and finished

by Mr. Morgavi, our departmental mechanic.

JOHN ADRIANI, M.D., Director Department of Anesthesia

ANNUAL REPORT LUNG STATION

July 1, 1955 to June 30, 1956

The work performed in the Lung Station during the fiscal year of July 1, 1955 to June 30, 1956 was not significantly different in volume or type of service rendered from the experience of 1954-55. Performance tests were considerably facilitated by the purchase of a portable treadmill.

Studies of ventilatory function alone were performed on 604 occasions during the fiscal year. Specialized ventilatory studies were carried out on 75 individuals.

In certain individuals, a supplementation of ventilatory studies by evaluation of respiratory function was found necessary, and arterial gas determinations were made on 39 individuals. Other respiratory function studies were performed on 20 occasions.

Bronchospirometry was requested on only two patients during the fiscal year. This is a continuation of the trend toward more selective thoracic surgery and better overall therapy of tuberculosis. The estimation of differential ventilatory function was considered adequate by fluoroscopic means only in 21 individuals.

Diagnostic bronchial lavage and needle biopsy continued as services of the Lung Station in very selected cases. Bronchial lavage, with cultural and cytological studies of the washings, was performed on 12 individuals, and needle aspiration of the lung was carried out on 4 individuals.

The therapeutic facilities of the Lung Station, with particular reference to intermittent positive pressure breathing and aerosolization, were utilized on 309 occasions. This is a significant increase over the fiscal year of 1954-1955, despite our efforts to restrict this service as much as possible. We have a distinct feeling that the need for such services in the hospital is much greater than is indicated by our report. As a matter of fact, we have extended the use of our equipment to the hospital residents for ward patients. This has been undesirable from our point of view, both in regard to loss of equipment, abuse of equipment, and failure to return equipment after its use. There is a very real need for supervised inhalation therapy within the hospital.

Respectfully submitted, JOHN H. SEABURY, M.D. Director, Lung Station

SISTER MARGARET MARY, Supervisor

ANNUAL REPORT PREMATURE INFANT CARE CENTER

July 1, 1955 to June 30, 1956

I. ADMINISTRATIVE ACTIVITIES

The Premature Infant Center Committee met several times to review problems and appoint special multidisciplinary subcommittees for specific purposes. A major administrative accomplishment this year was the complete revision of the Special Project Training Program in the Care of Premature Infants. Many key individuals, representing the medical and nursing interests of Charity Hospital and the State Health Department, worked diligently to produce a completely revised and modernized program encompassing three coordinated objectives: service, education and investigation. This document, completely describing the scope of Premature Infant Center activities. was submitted to the Louisiana State Health Department for approval and continuing support.

In January, the staff of the Premature Infant Center began publication of a monthly Newsletter for the purpose of keeping all interested personnel informed of current statistics and activities related to the Premature Infant Center.

A special committee developed plans for annual recognition of outstanding services in behalf of the Premature Infant Center. Doctor E. L. Leckert was selected as the 1956 recipient and presented with the first of these awards, known as the Golden Spoon Award.

II. SERVICE ACTIVITIES

A. Medical

Further progress was made in the standardization of medical care procedures. A major problem of this year was the occurrence of a generalized epidemic of infectious disease in the premature nursery manifest by diarrhea among the infants. This occurred and continued during the months of June, July and August. During July and August the Premature Infant Center was closed to new admissions and a special emergency nursery was established for the care of newly admitted prematures during this period. Representatives from several agencies and departments, including the State Health Department and the U. S. Public Health Service, cooperated in the management of this epidemic, during which over one hundered infants were ill with diarrhea and the deaths of two infants were, unfortunately, directly due to this disease. Based on this experience, considerable attention was given to possible mechanisms by which such an epidemic could develop. A complete revision of the nursery operating policies was instituted for trial and further study. This revised plan placed emphasis on stabilization of babies as well as personnel within specific units and positions in each nursery, and has been found to be quite effective in controlling spread of infection during the first 10 months of its operation. Continued operation under this plan is being carried out until significant data is collected for its revision or permanent acceptance.

The operational policies of the Premature Infant Follow-up Clinic were completely revised and this clinic was operated throughout the year at weekly intervals. One hundred and sixty-five prematures were seen one or more time in this clinic for a total of four hundred and one visits.

B. Nursing

The appointment of a well-qualified Nursing Supervisor and Assistant Supervisor in charge of educational programs in the Premature Infant Center facilitated the implementation of the excellent recommendations made by the Charity Hospital Com-

mittee on Premature Infant Care.

An emergency auxiliary nursery was established on another floor and operated by the Nursing Service Department for a period of two and one-half months during the late summer of 1955 because of an unusually large number of abnormal stools among infants in the regular Center. This episode effected a major change in the operation of the individual nurseries within the unit and the nursing management of the infants.

C. Medical-Social

The Medical-Social Supervisor of the Premature Infant Center continued to assist families of premature infants cared for in this Center. An analysis showing the nature of casework done is given in Table VII, Page 11.

D. Dietary

Formula preparation, specifically for infants in the premature center, continued in an efficient manner. The specially maintained record system related to formulas going to the premature center proved to be quite helpful in the studies of infectious disease in the Premature Infant Center.

The Formula Room Supervisor resigned and was quickly

and satisfactorily replaced.

III. EDUCATIONAL ACTIVITIES

A. Medical

1. Postgraduate, Formal and Informal

General orientation and informal discussions were provided many physicians who visited the Center throughout the year. A total of fifty-eight physicians were conducted through the Center; twenty-four of them represented eighteen different

foreign countries.

Several programs in the care of premature infants were provided by the medical and nursing staffs of the Premature Infant Center for a group of pediatricians attending a formal Tulane Pediatric Postgraduate Course. A class of students in the Division of Graduate Medicine at Tulane Medical School working toward their Masters' degree in public health received four hours of teaching from Premature Infant Center personnel.

Combined Charity Hospital and research grant support made it possible for the first time to obtain a Fellow in the Premature Infant Center. Doctor Thomas Pryor from Wisconsin, having completed two years of pediatric training, held this position for six months. He not only received continuous onthe-job training in the care of newborn infants but also contributed greatly to the teaching and investigative activities. His contributions toward improving overall service responsibilities and acting as assistant to the Medical Director of the Premature Infant Center were invaluable, particularly during the epidemic and reorganization period.

2. Staff

Regular training and experience in the care of premature infants were provided for eighteen new pediatric residents and forty rotating interns.

3. Undergraduate

Undergraduate medical student teaching activities by the Medical Director of the Premature Infant Center were greatly expanded during this year, as a result of a marked increase in teaching time devoted to newborns and prematures by the pediatric departments of both Tulane and LSU Schools of Medicine. The Medical Director contributed approximately four hours each week to the medical student teaching activities of each medical school.

Several hours of teaching were given to the Charity Hos-

pital class of dietary interns.

B. Nursing

Both the Nursing Supervisor and the Assistant Nursing Supervisor attended a four weeks' course in the care of premature infants at the University of Colorado, and the benefits of this experience were evident in the improvements in the programs of administration, nursing care and nursing education in the Center.

The educational program in the Center, financed through the Louisiana State Department of Health, was reorganized and broadened to meet present day nursing needs. Orientation and observation programs were scheduled for periods of one week and three weeks, and sixteen professional nurses from other hospitals participated in these programs during the fiscal year. The nursing staff also gave brief orientations to premature infant care to fifteen graduate professional nurses, four hundred and fifty-three student nurses, and fifty-six high school students and residents of the city. The inservice training program was reactivated and forty-one nurse aides employed in the Center completed training during the year.

C. Medical-Social

The Medical-Social Supervisor participated in all teaching programs related to the Premature Infant Center. Educational activities were carried out in relation to developing observational periods for nurses and medical students and in relation to a special comprehensive medicine teaching program in the Tulane School of Medicine.

In March the Medical-Social Supervisor attended a "Workshop on Short Term Contact with Patients" held at Tulane University.

D. Dietary

The dietitian in charge of the Formula Room provided instruction in nutritional problems and formula preparation related to premature infants for twelve dietary interns during the fiscal year. In addition, she participated in other ongoing educational activities of the Premature Infant Center, particularly in providing guidance on the technic of terminal sterilization to parents at weekly predischarge conferences.

IV. INVESTIGATIVE ACTIVITIES

With the cooperation of nursing and clerical personnel, many heretofore unavailable statistical compilations became possible. Table I, Page 7, demonstrates that over half of the premature infants admitted to our Center come from parishes other than Orleans. The detailed breakdown of figures shown in Table II, Page 7, illustrates the relative importance of specialized premature care for specific weight groups. It also illustrates the relative importance of stillbirths as a public health problem. Table III, Page 7, showing the duration of hospital stay of a randomly selected sample of premature infants in this Center, suggests a slight shortening of the hospital stay during this year as compared with the previous year, although there is evident marked individual variation in these times. The overall admission and survival figures shown in Tables IV, V and VI, Pages 8, 9 and 10, do not differ significantly from previous years, although there was approximately twenty-five percent reduction in the numbers of prematures admitted. This reduction was effected in part by lowering the weight limit for admission from 2270 grams to 2100 grams and in part by general improvement in facilities for care of premature infants in other hospitals of the state.

Studies which were completed during the year included a comprehensive survey of one and one-half to two and one-half year old prematures cared for in the Center in 1953, determination of venous pressures and circulation times among term and premature infants, development of an aseptic method for collecting placental blood by Doctors Pryor and Hood, a preliminary feeding trial of a new infant milk by the LSU pediatric staff, a study of the relative value of gamma globulin versus pooled plasma in the treatment of non-specific diarrhea in prematures, a study of the relationship between prolonged membrane rupture and signs of infection in the newly born infant by Doctors Sappenfield and Terral of the LSU pediatric staff, and preliminary studies of ultra-histology of the newborn infant lung by electron microscopy. The latter paper was read before the Society for Pediatric Research in May 1956. An extensive study of cardiorespiratory symptomatology in newly born premature infants was carried out primarily by the nursing staff of the Premature Infant

Center.

Long term studies which were continued during the year included further collection of data related to retrolental fibroplasia, growth and development patterns and biochemical studies on the capillary blood of premature infants.

V. STATISTICAL TABLES

TABLE I

ADMISSIONS BY PARISH (Known) (Eight Month Period, November 1955—June 1956)

	Total	Percent

TUMOR REGISTRY ANNUAL REPORT

July 1, 1955 to June 30, 1956

The Tumor Registry has continued to work toward carrying out its functions, namely:

To register all malignant cases known to this hospital from Jan-

uary 1948 to present.

(2) To add informational follow-up to these records for the lifetime

of the patients.

(3) To organize the material in such a way as to provide easily accessible information to be used in research studies, for teaching and for demonstration.

In addition, a registry has often been referred to as a Medical Audit, for the appraisal of the quantity and quality of medical care provided for cancer patients within a given institution—or as a yardstick to be used for the comparison with itself over a given period of years.

TUMOR REGISTRY BOARD

The Registry is sponsored by Charity Hospital of Louisiana at New Orleans, the Louisiana State Board of Health, the Medical Schools of Louisiana State University and Tulane University, the American Cancer Society and the Louisiana State Medical Society. These are represented on the Tumor Registry Board by the following members:
Dr. E. L. Leckert, Charity Hospital
Dr. J. D. Martin, Louisiana State Board of Health

Dr. R. J. Muelling, Louisiana State University Medical School
Dr. W. W. Frye, Louisiana State University Medical School
Dr. E. T. Krementz, Tulane University Medical School
Dr. R. C. Smith, Tulane University Medical School

Dr. Ambrose Storck, Louisiana State Medical Society , American Cancer Society

(open) Chairman-Dr. E. T. Krementz

Recording Secretary—Mrs. Marian Simmons Statistical Consultants—Medical and Scientific Department, American Cancer Society, New York:

Dr. E. Cuyler Hammond Dr. Aubrey Schneider

ACTIVITIES

Aside from the usual visitors to the Registry and the releasing of information to doctors who have made specific requests, the following is of interest:

July 1955-A report from Dr. Aubrey Schneider following his visit to the Registry in June 1955-"Present status and recommendations for the future operation of the Cancer Registry at Charity Hospital, New Orleans."

March 1956—Visit from Dr. E. Cuyler Hammond in regard to statistical data for the Third National Cancer Conference.

April 1956-Statistics released on leukemia during the Louisiana Cancer Conference with eleven British and American research investigators in this field as speakers.

April 1956—Statistical data on 12,183 cases by site of disease, race and sex sent to all members of the medical staff of Charity Hospital and other interested personnel.

June 1956—Statistical data sent for use at the Third National Cancer Conference held in Detroit, Michigan. This hospital was one of ten in the United States selected to participate together with three state registries and some specialists. A published report of this material, "Cancer at Mid-Century", is available in the libraries at Charity, Louisiana State University and Tulane University Medical Schools. Among those from New Orleans attending the Third National Conference in Detroit, June 4-6th, were Dr. E. T. Krementz and Dr. R. J. Muelling of the Tumor Registry Board and the Director of the Registry.

STATISTICS

Other statistical information, too lengthy to include in this report, is available upon request.

ANNUAL REPORT MEDICAL SOCIAL SERVICE DEPARTMENT

July 1, 1955 to June 30, 1956

This Department provides for patients at Charity Hospital such services as are needed to help them to reach a solution, or the best possible adjustment, to social, or personal problems related to illness or disability. Such problems in most instances prevent the patient from following medical recommendations, to the detriment of his own progress, and with the result also of serious inconvenience to hospital personnel. The number of patients who can be helped is limited by the size of the staff, but an effort is made to select the most urgent cases for assistance. Patients are referred to the Department by the medical or nursing staff, interested individuals, or by the patient himself or members of his family. All referrals are accepted for evaluation, and the appropriate service is given whenever possible. In some cases, a solution to a patient's problem may be reached readily, with one or two interviews, or perhaps only a telephone call. In more complex situations, a more prolonged contact is needed. Each situation is handled on an individual basis, depending upon the type of problem involved, and the resources available to meet the need. Services provided are definitely limited by the resources available in the community. Some

of the more common types of help given are described below:

One of the most frequent types of referrals involves helping to plan for the care of the chronically ill patient. In these cases the patient may be in the hospital or may be applying for admission. In either case, hospitalization is not needed, and the patient, if retained on the ward is occupying a bed needed for an acutely ill patient. However, in most instances, nursing care is necessary. The social worker in such a situation would help the patient or his family to plan for such care, the first step usually being to help the patient, his family, or interested persons in the community to understand why the patient, though ill, is not in need of hospitalization. Plans for the patient are worked out by means of assistance with nursing care in his own home, or in a nursing home, thus freeing a hospital bed for more appropriate use. Another type of service involves financial problems. Since many of our patients are in the marginal income group, catastrophic illness or injury creates a serious financial problem, particularly if it is the breadwinner who is affected. Such problems are handled by referral to other community agencies, usually the Department of Public Welfare. Other services would include helping unmarried moth-ers plan for the care of their babies, referral of abandoned babies for placement, helping patients secure braces and appliances, and a wide variety of others. In nearly every case a less tangible type of service is given which would include helping the patient and his family to understand and adjust to his handicap, and to understand and accept the need for treatment, thus helping to facilitate the treatment process. In numbers of cases, with psychiatric consultation, patients are helped with personality problems, or with problems of adjustment within the family group. Much of the work of the Department is done on a cooperative basis with other social agencies in the community.

Services to Patients

Assistance of the types described above was provided for 51,109 patients. This represents a considerable decrease from the previous year. Three possible factors may account for this decrease. The large number of vacancies and the volume of turnover of staff meant that fewer patients

could be served, and that undoubtedly many patients who could have benefited from social services could not be cared for. Secondly, an attempt has been made to discontinue inappropriate functions previously performed, so that the workers would have more time for professional services to patients. The third factor may have been that the workers many times must work rapidly and under pressure so that the keeping of accurate statistics is difficult. The Department is participating in a committee at the Council of Social Agencies whose purpose is to streamline the method of keeping statistics so that they will be more accurate, and also reflect more meaningfully the work of the Department.

Of the total caseload, 33,000 were recorded in permanent form and no permanent record was kept of 18,190 cases. In the latter group were cases in which the contact with the patient, while important to the patient or the hospital, was brief, and it was not thought a permanent record would be necessary. Also in this group, however, are some cases in which a permanent record would be desirable but could not be kept because of other pressures.

Use of Funds

Some of the medical needs of patients are met by use of funds which are available to the Department, either by appropriation by the hospital, or through money donated or bequeathed to the Hospital. The amount of money available is small compared to the total needs of the patients, and the Department is able to help only a small percentage of the patients through this medium. During the year, \$7,172.18 was spent for 3,215 patients. The money was used as follows:

Medication	\$5,670.92
Transportation	780.10
Maintenance	301.06
Appliances	420.10

Staff

With a full staff the Department consists of 24 medical social workers, 8 psychiatric social workers, 9 intake interviewers, 6 supervisors, and the director. However, it has been several years since this department has had a full staff. The problem of recruiting workers is becoming more and more acute for two reasons. First, there is a shortage of professionally trained workers: new fields are opening for such workers throughout the country. In the second place, though Charity Hospital salaries have been increased twice in the past two years, there are still many agencies offering opening salaries considerably higher than ours. During the past fiscal year, there was an average of 10 vacancies in the medical social work staff, two in the psychiatric social work staff, and one supervisory vacancy. There was, however, a full clerical staff for the entire year, and it is anticipated that the supervisory vacancy will soon be filled.

Eligibility Determination

In addition to providing social services for patients, the Department is also responsible for investigating eligibility of patients, applying for treatment. With a staff of nine interviewers, only a small part of the total of 231,126 patients applying, 28,631 patients, could be interviewed. As in the past several years, this represents approximately 12% of the total number. It would be expected that this percentage would remain approximately the same, since the staff of this unit of the Social Service Department has remained fairly constant, and there has been no turnover during

the year. Professionally trained social workers are not used in this unit, since it is not believed that social work training is needed in order to carry out a financial investigation competently. The interviewers, however, are under the direct supervision of one of the professionally qualified social work supervisors in the Department.

Of the 28,631 patients interviewed, 5,947 were found to be ineligible. The ineligible patients were distributed as follows:

	No.	Interviewed	No. Ineligible
Clinics		2,429	1,127
Wards		4,156	557
Accident Room		22,046	4,263

General

A problem of concern to the Department is the provision of medications for clinic patients. The hospital is not officially responsible for providing drugs for patients, nevertheless, large numbers of patients are referred to Social Service for help in securing medications. As mentioned above, this Department has small amounts of money which can be used for this purpose, but it nowhere approximates the amount requested. In some cases the medication is urgently needed, possibly even as a matter of life and death. An effort is made to screen out the most emergent needs, but this is very time-consuming, and difficult to do. A committee of staff members is to be set up in the fall to consider this problem, and to make recommendations for its solution.

In an effort to improve relations between this Department and the Department of Public Welfare, and to help the latter agency to learn to use the hospital services more effectively, a program has been initiated in which the executives, supervisors, and staff workers of the various Department of Public Welfare offices will make visits to the hospital. In the one field trip held so far, the Department of Public Welfare personnel were taken on a tour of the hospital, followed by a talk by the Assistant Director of the hospital on the facilities offered by the hospital. This was followed by an informal question and answer period with the director and supervisors of the Social Service Department. The response from the Department of Public Welfare was positive, and each person who participated in the program felt that he had profited greatly, and would have a better understanding of the way the hospital and Social Service Department could be used more effectively for his clients who needed medical attention. The same pattern will be used for subsequent field trips.

Students in Medical Social Work continue to be placed in the hospital for their practical training, which is given concurrently with classroom teaching. The hospital supplies space and equipment, while the Schools provide instruction. Cases for the students are selected from the caseloads of the staff workers, and consultation on individual cases, or on policies and procedures is available. The unit functions as an integral part of the Department and provides highly individualized services to an appreciable number of patients. This past year there were eight students from the Tulane School of Social Work, and two from the LSU School of Social Welfare.

The Director and members of the supervisory staff participated in the work of the Council of Social Agencies and of the professional medical social work organization. The objective is to keep abreast of the developments in other agencies, to help build up needed resources, to interpret the function of the hospital, to consider means of improving existing services, and other such community activities.

There were several active staff committees to consider various phases of the work of the Department, and to make recommendations. Participation in committee activity was on a volunteer basis, and the committees operated in the following areas: Recording, Statistics, and Program Planning for Staff Meetings.

The installation of air-conditioning in the main office is almost complete, and will mean that the workers will be able to work more comfortably and more efficiently during the remaining summer months.

Respectfully submitted,
MARIGAYLE H. HART, Director
Social Service Department

ANNUAL REPORT MEDICAL AND PATIENTS' LIBRARY

July 1, 1955 to June 30, 1956

Staff

The library staff remained the same during the year of this report. The help given by the volunteers was appreciated very much. They worked a total of 239 hours. They put much zeal in their work.

Reading Room Activities

The attendance in the library was high. The hours were increased so the library could be opened later at night and on Saturday afternoon. The professional staff derived much relaxation and pleasure from its use. Visiting and staff men consulted the medical books and journals often. Twelve new medical books were added to the reference collection. Suggestions that were beneficial for the library were used. Displays continued to be used to interest the staff in new and old books. Dr. La Rosa gave a tropical aquarium to the library.

Ward Activities

The ward rounds were covered daily by the staff and the volunteers. Volunteers were trained before being assigned a ward round. Attention was given to the manner of greeting patients, getting his interest in a book or magazine or just talking cheerfully to him. Morale of the patients was helped a great deal. Patients showed their appreciation of the service by sending notes and books to the library.

Gifts

Pocket books, bound books and magazines were given by clubs, business houses, churches and individuals. The professional staff and personnel of this hospital contributed a large amount.

Statistics

Circulation	
Ward	8,349
Reading room	9,505
Total	17,854
Attendance	38,378

ANNUAL REPORT OF VOLUNTEER SERVICE

July 1, 1955 to June 30, 1956

During the fiscal year 2,408 individual volunteers contributed a total of 51,856 hours of service to the various hospital departments and sections listed below. This represents a continuing increase of volunteer effort over previous years and an average of 427 volunteers working in the hospital each month. Some 872 individual recruits were registered and placed during the year. In addition a number of groups were referred for temporary or permanent service projects in the hospital.

^{*}Incomplete. Many volunteers in this type work do not register or report hours.

Of the 44 organizations giving 25,633 hours of service during the year the following were outstanding.

Hours Organizations

Alpha Beta Sigma (High School Sorority) 645

186 American Legion Auxiliary

6.934 American Red Cross

2,558 American Woman's Voluntary Service

119 Boy Scouts

462 Future Business Leaders of America (East Jefferson High School)

101 Future Nurses of America 184 Gentilly Methodist Church

2,912 Girl Scouts

269 Junior League Junior Red Cross 130

Legion of Mary (Mary Immaculate) (Dominican High School) National Council of Jewish Women 180

724 Omega Phi (High School Sorority) 220

204 Phi Alpha Kappa (High School Sorority) 175 Pi Tau Pi (Business Men's Fraternity) 747 Rainbow Girls (Assemblies #1, 42, 43, 56) 1,507 Women's Volunteer Sewing Guild

The Volunteer Advisory Committee membership included representatives of community organizations, hospital staff, volunteers and interested individuals. Members active during 1955-56 were:

Mrs. Scott Wilson, Chairman Mrs. Henry H. W. Miles, Vice-Chairman Miss Lucille Livaudias, Chairman, ex-Officio

Mrs. Marion Adams Mrs. M. Benjamin Kotch, Jr. Mrs. O. J. Babin Miss Lucille Baker Mrs. Charles F. Landry Mrs. Louis Leggio Mrs. Charles Betz, Jr. Mrs. Emmett J. Bieger Mrs. Lazare Levy, Jr. Sister Laurence Mrs. M. Bowen Mrs. Earl Meixel Miss Margaret Carre Sister Margaret Miss Clara Chapotel Mrs. Arthur Meyer Mrs. William E. Collins Mrs. Harry Meyer Mrs. Ross Mc Grath Mrs. Eddie Cooksey Mrs. William R. Eddins Mrs. Ray Forrester Mrs. Cynthia Sanborn Smith Mrs. Catherine Serpas Mrs. Louise Goetter Mrs. Charles Stich Mrs. Adrienne Kindelsperger

This committee has sponsored all important projects of the Volunteer Service as follows:

Annual Meeting-Entertainment by AWVS Cheerladies, talks by Sister Margaret, Dr. A. A. Flores and presentation of Certificates and Awards featured the well attended annual meeting of volunteers in October.

Recognition-159 awards such as Teen Emblems, Pins and Bars for specific hours of cumulative service were presented to volunteers during the year. 22 certificates of merit were awarded to organizations. 149 volunteers received annual 100-hour certificates from the Community Volunteer Service and were invited to the community-wide volunteer recognition supper in March.

Publicity—566 Radio spots for recruitment were written and several newspaper stories were released during the year.

Bulletin—A mimeographed volunteer bulletin was issued quarterly. Each issue featured a hospital department including the Record Library, Sisters' Division, Social Service, and Premature Unit.

Christmas Activity—In order to avoid duplication and confusion an attempt was made to coordinate all Christmas activities for patients through the Volunteer Office. All children patients were reached through WWL Toy Distribution and in addition 8 other events were arranged for children. 19 parties and events for adults were scheduled.

Orientation—9 Training classes and tours were conducted for 137 new volunteers.

Guide Service—A plan was set up for volunteers to serve as guides to show visitors around the hospital. A complete training tour was given the group by Dr. Flores and mimeographed maps and outlines of points of interest have been devised. 28 tours were provided by volunteers before the end of the year.

Donations—Many contributions of various kinds are channeled through the department of Volunteer Service. 188 thank you letters were written acknowledging gifts from organizations and individuals. The variety of donations has included, TV sets, radios, phonographs, records, glider swing, rocking horses, toys, games, puzzles, cards, books, magazines, Junior League Fun Books, holiday favors and tray mats, party refreshments and favors, craft and occupational therapy material, small articles for prizes, entertainment, professional bands and puppet shows, clothes, slippers, baby garments, Christmas decorations and individual gifts, candy, fruit, Easter eggs.

Respectfully submitted,
FLORENCE JENNINGS, Director
Volunteer Service

ANNUAL REPORT

July 1, 1955 to June 30, 1956

PEDIATRIC RECREATIONAL PROGRAM

Sponsored by the Council of Jewish Women New Orleans Section

Physical Setting

Pediatric Recreation is conducted from the centrally located Play Room, W-903. The Play Room is a large, cheerful, light and airy ward. It is attractively decorated and well equipped with numerous and varied toys, games and play-things. Planted flower boxes grace the windows and live birds and fish brighten the Play Room and interest the children. There is adequate space for activity and arts and crafts; storage room for toys and supplies and the treatment room is utilized for an office by the staff.

Financial

In the past year the hospital has continued to allocate \$100.00 monthly for supplies, toys and repairs. The purchases are made through the regular channels of requisitions and authorization. During the past year purchases have included: repairs of television sets, craft supplies of plastic, wood and plastic model trains, cars, planes and boats, basket weaving supplies, bead looms and beads, varied leather craft, construction paper, crepe paper, scissors, paste, glue, shellac, paints and other necessary materials.

The hospital carpenter shop made a dozen sturdy and attractive children's chairs to be used at the small tables which were constructed

The Council of Jewish Women, N.O. Section continue to finance the salaries of the Recreational Director and Assistant. They also have been generous when any need arises.

Volunteers

Volunteer participation is a most important contribution to the Recreational Program. Volunteers continue to bring a fresh and enthusiastic point of view to the children. They enable us to give more individualized attention to the youngsters and better service to the hospital. During the past year 165 volunteers have served 4,412 hours in the Recreational Program.

Program

The daily play room and ward activities are from 9:30 A.M. to 11:30 A.M. and 2:30 P.M. to 4:30 P.M. On Monday and Wednesday evenings the Programs are from 5:30 P.M. to 7:30 P.M. The Play Room activity includes free play, music, games, arts and crafts and story telling. The Ward recreation includes toy distribution, and the distribution of record players, radios and televisions, also bedside supervision of arts and crafts with particular attention to individualized needs.

Craft classes for teen-age patients continued again last summer on a regular schedule. We were also able to work with this group during the winter months on an irregular basis. This was done with the cooperation of the school teacher. When volunteers were not present to supervise, supplies and equipment were made available to this group through the

teacher.

Coordinated Programs and Parties

Parties and programs on the Ninth Floor are coordinated by the Recreational Program. The Program plans birthday parties for all children having birthdays while hospitalized. These parties are complete with presents, favors, games and prizes and refreshments. They are given for entire wards or units as indicated. 126 birthday parties were celebrated during the last fiscal year. The largest number of children reached at any of our parties is the annual Christmas party. At this time over 1,000 children are provided for by the W.W.L. Christmas toy distribution. This includes children on the Ninth Floor, Polio, Contagion, W. & C. T.B. and a huge one day clinic party and toy distribution.

Parties given by individuals or community groups are coordinated

by the Recreational Program.

Student Nurses

It was recommended that the student nurses, during their pediatric training, receive training and supervised activity in the Recreational Program. Since September, 279 students have been rotated through the Pediatric Recreational Program. These nurses have spent an aggregate of 1,116 hours in the recreational field. They have been supervised by their clinical instructors and the Pediatric Recreational Director.

Training and Orientation

Volunteer training included routine orientation for volunteers and on the job training in various arts and crafts. This was supplemented by a one day Workshop in arts and crafts for volunteers and student nurses. The evening group had similar training.

Publicity

Publicity for the year included regular spot radio announcements, newspaper pictures and stories for Easter, Thanksgiving and Christmas parties. Also an article entitled "Cradles of the Valiant" in the Ave Maria magazine.

Donations

Donations have been varied and numerous. Many organizations and individuals have contributed gifts to the children, which have been most helpful and useful.

AMY HARRISON, Director

Besides making surgical dressings for the hospital patients, following are some of the other activities of the members of the Guild.

Forty-seven layettes were made and given as needed; also a large amount of used clothing, new and used shoes, books, magazines, scrap books, picture puzzles, games, and toys.

At Christmas, 340 dolls and toys were given to the children in the hospital; a party was given by Mrs. Walter Grunning, Chairman of the doll and toy committee.

A Christmas and an Easter party were given to the Tuberculosis children by the colored willing workers of the Guild.

Also, a Christmas and an Easter party were given to the male patients in the White T.B. ward by the Magnolia Branch of the Louisiana Sunshine Society. This Society also gives four pounds of coffee weekly for the patients in the White and Colored T.B. Buildings. At Easter, they gave to the seventh floor Orthopedic patients, Easter eggs and fruit. The entertainment, gifts, and refreshments were greatly appreciated, and enjoyed by all.

The Guild members also help to make cancer dressings for the cancer society; the American Cancer Society furnishes its own gauze; these dressings are given to the outside patients by the Chairman, Mrs. Louis Leggio.

ANNUAL REPORT HAPPINESS HELPERS

July 1, 1955 to June 30, 1956

During the year the Happiness Helpers have donated to the Children's Bed Endowment Fund Two Thousand Two Hundred and Fifty Dollars (\$2,250.00) in addition to the following:

Two Wheel Chairs at a cost of \$156.00; 3 large boxes of reconditioned toys; one dozen new Dresses; \$200.00 towards the Sisters' Chapel; \$150 towards sundry gifts and baskets for the needy poor.

We have given the children Happiness on the following occasions: King's Day, Valentine Day, Mardi Gras, St. Patrick's Day, Easter Saturday, School Closing Day, Fourth of July, Sara Lee's Birthday, August 27th., Hallowe'en and Thanksgiving.

We received for these happy events donations of ice cream, candy, cakes and small gifts amounting to several hundreds of dollars. The names of the donors are being withheld at their request.

We have comforted and visited many adult patients in addition to our Kiddies on the Ninth Floor.

We hope our humble efforts have been of some good and cheer to the many sick and unfortunate people in this institution.

> SARA LEE JUDIS, President Happiness Helpers, La. Sunshine Society
